**Subject:** Facility-Specific Reports Available—PCH-36

**Prospective Payment System (PPS)-Exempt Cancer Hospital (PCH) Facility-Specific Reports (FSRs) for Fiscal Year (FY) 2026 Program Year Now Available**

The Centers for Medicare & Medicaid Services (CMS) is providing facilities with FSRs containing information on the following measure for program year FY 2026:

Measure	Performance Period
PCH-36: <i>30-day Unplanned Readmissions for Cancer Patients</i> (cancer readmissions measure)	October 1, 2023–September 30, 2024

The FSR is a Microsoft Excel workbook containing facility performance results, national results, and detailed patient-level data used to calculate the measure results. The FSRs provide facilities with an opportunity to review their results and understand their performance on the measures prior to public reporting in fall 2025 and are accompanied by a user guide to help facilities interpret their FSR.

Detailed information about the measures and a mock FSR is available on QualityNet at: <https://qualitynet.cms.gov> > PPS-Exempt Cancer Hospitals > Measures > Cancer Readmissions Measure.
