Subject: PCH-30/31 Data Suppression and Corrected FSRs

Announcement from the Centers for Medicare & Medicaid Services (CMS):

Following the release of the Facility-Specific Reports (FSRs) and measure details in July 2026, issues were identified affecting the PCH-30 and PCH-31 measure results, including data that has been publicly reported. CMS expects to recalculate the measure results and provide corrected FSRs for the upcoming January 2027 Public Reporting preview period.

In the meantime, CMS will suppress the measure results on both the July 2026 and October 2026 Public Reporting Preview Reports available in the Hospital Quality Reporting system. For these suppressions, CMS will display NA with Footnote 4 (Data suppressed by CMS for one or more quarters).
