Reminder: Check Out the New CMS HSR Tutorial Video

Hospitals participating in the Hospital Inpatient Quality Reporting (IQR) Program receive annual hospital-specific reports (HSRs) for the readmission, mortality, complication, payment, and excess days in acute care (EDAC) measures. The information in these HSRs can help hospitals:

- Understand their performance on the measures before the information is publicly reported on [Hospital Compare](#)
- Understand which patients were included in their measure calculations
- Identify areas for quality improvement efforts

The Centers for Medicare & Medicaid Services (CMS) has released a new video to assist participants in the Hospital IQR Program with interpreting and understanding their HSRs. Clicking on the picture below will direct you to the CMS HSR Tutorial Video. The video can also be accessed [here](#).

If you have questions about locating or downloading your HSR, please contact the *QualityNet* Help Desk at qnetsupport@hcqis.org.
